FINANCIAL AND COMMERCIAL.

MONEY MARKET.

FRIDAY, May 30—6 P. M.
The stock market shows increased activity, and better prices ruled at the board. All the leading railroad stocks were in demand. Erie advanced & per cent; Delaware and on, 1%; Michigan Southern, %; Panama, %; Cleveland and Pittsburg, 1/4; Galena and Chicago, 1/4; Cleveland and Toledo, %; Chicago and Rock Island, %. Nicaragua Transit fell off 1/2 per cent; New York Central, 1/4. At the second board some of the most prominent railroad stocks were better. Erie went up % per ceht; Reading Railroad, 14; Michigan Central, 14; Michigan Southern, 14. New York Contral fell off 14 percent, and closed heavy; Nicaragua closed without change. The dispatch of Mr. Marcy to Mr. Dallas, in reference to the dismissal of Crampton, gives universal satisfaction. It is calculated to restore public confidence at once, and put the question foreve at rest. In a few days the whole affair will be forgotten. Money is steadily working easier. The steamship Fulton, from this port for Southampton and Havre, to morrow— Saturday—will not take out more than two hundred thousand dollars in specie. Operations in foreign ex-change for this packet have been limited. We quote change for this packet have been limited. We quote bills on London at 9% a 9% per cent premium; on Paris, 5f. 17% a 5f. 16%. There is very little doubt but that the month of June will bring a perfect plethora in the money market, and an advance in the best class of stock securities equal to anything of the kind known for many months. Outside holders are evidently of this opinion, which accounts for the little disposition exhibited to sell.

The Assistant Treasurer reports to-day as follows:-The payments to-day include \$21,000 on California

The Treasury Department has given notice that the United States stock, issued by act of Congress of July 22, 1846, will be redeemed on the 12th of November next, when the interest thereon will cease. The annexed statement exhibits the quantity and value

of foreign dry goods entered at this port for consumption, for warehouse, and also the withdrawals from ware house, during the week ending and including Thursday,

\$246,548 Value put on the market during the week \$918,10 The spring season with jobbers is now over, and hence neactions of the past week were not of sufficient maghitude to justify any extended or detailed notice of prices, &c. We do not expect the autumn trade to begin before the first of July. The stocks carried over are said not to be much, if any, larger than usual. The payments bave continued to be fair from most sections of the country; the only difficulty felt to any extent has been chiefly in the grain growing States of the North and West, where the fall in breadstuffs and provisions has interfered to some extent with collections. The spring business, upon the whole, has been satisfactory; though not perhaps so extensive as was anticipated at its com mercement. Every year, with the increase of capital and skill, improvement is made in the style and quality of Ame rican manufactured goods. The character of many fabrics is now as well and widely known to the trade from their bels as the value of a piece of American coin. To attain this reputation for stanfard makes has been the result of years of careful and honest toil on the part of thos manufacturers who produce them. This course, it is discovered, ultimately pays better than any other. For instance, the bleached water twist thirtings made by the York Mills, in Oneida county, are as well known to the trade and to consumers as the specie coin in circulation During the past week there has been a good export demand for cotton goods. About 1,000 bales of brown drills were taken for China at Sc., and about 2,000 pack. ages brown shee ings and shirtings, for Mexico, chiefly for Tampico, at about 8c. for heavy goods. The whole value of exports for the week ending May 20, amounted to \$48.247, of which \$36,000 were taken for Mexico; Brazialso took \$8,000. The chief features in the spring trade of foreign dry goods have been the extent of importations, (and so far as fancy goods were concerned were greatly in excess of the demand and the sacrifices made at the auction rooms. The losses on their importation have been immense, talling in some cases to neorly one-half of the cost and charges. No:withstanding this wholesale slaughter, the cry has been "Still they come," and the importers may still say that they have "a few more of the same sort left." These losses, however, must enure to those abroad, or on the other side of the water. Beyond the auctioneers who have sold

continue scarce and in good demand, with a limited steek.

Corset jeans were quiet. Denims were firm. Cotton duck was quick, and current prices well sustained. Fiannels and blackets continue quiet firm, with good supplies. Other articles are without change of moment.

FAMILY MARKETING.

RETAIL PRICES OF FARM PRODUCE IN WASHINGTON MARKET. Meat shows no noticeable variation in price this week. Corned pieces are still cheap, and mutton is somewhat lower in price, but fresh cuts maintain even rates, and do not appear to be much affected by the fluctuations in the cattle market. Our poultry and game list shows some changes, and snipe and plover are in, while winter game has run out. With the exception of wild pigeons and spring chickens there is not much doing in poultry.

Fish does not show much change. Shad are running

out and mackerel and herring are looming up largely. Butter was cheap in the early part of the week, but yesterday it manifested an upward tendency. Good Orange county, however, still sells at 25 cents a pound. per than they have done be years. Eleven and twelve are sold for a shilling.

Fruit begins to come in pretty well. Apples are growing scarce, but strawberries are becoming plentiful, and yesterday cherries made their appearance. In one week more the market will be full of these line fruits. Vegetables remain at about the same quotations as last week.
